

The Insider

OFFICIAL NEWSLETTER OF THE CITY OF SOUTH DAYTONA

MESSAGE FROM THE MAYOR

It's Springtime and our City has many family events planned, from the annual Egg Hunt on April 9th, Mothers Day Tea on April 30th, and the Kids Fishing Tournament on June 10th. To help you with some of your spring cleaning, Sparkle Days, garbage pickup is scheduled for April 15 – April 25. Please read the article in this newsletter to understand what items can be left at the curb for pick up.

Don't forget that hurricane season begins on June 1, although tropical activity can develop outside of this timeframe. Review your plans, check your supplies, and stay alert. Make sure you have a 3-day supply of food, water and prescription medications. Have your generator maintained and be careful storing extra fuel in containers. Remember to include an evacuation plan for you and your pets too. This newsletter includes a FEMA Flood Protection Information section to remind you how to protect yourself, family members and homes from hurricanes and flooding.

As a reminder, flooding can occur during major storm events and it can happen anywhere. Just one inch of floodwater can cause up to \$25,000 in damage. Most homeowners insurance

does not cover flood damage. Flood insurance is a separate policy that can cover buildings, the contents in a building, or both, so it is important to protect your most important financial assets, your home, your business, your possessions. To purchase flood insurance, call your insurance company or insurance agent, the same person who sells your home or auto insurance. If you need help finding a provider go to [FloodSmart.gov/flood-insurance-provider](https://www.floodsmart.gov/flood-insurance-provider) or call the NFIP at 877-336-2627. Plan ahead as there is typically a 30-day waiting period for an NFIP policy to go into effect, unless the coverage is mandated it is purchased as required by a federally backed lender or is related to a community flood map change.

I want to thank the Enclave for hosting last months Coffee with Cop/Mayor. We had a good turnout and plenty of questions were asked from the very involved attendees. A similar event is being planned in the near future.

In November 1934, a group of our residents voted to “divorce” themselves from the City of Daytona Beach, in February 1935, they elected a Mayor and City Council, and decided to call the area South Daytona. In May 1937, a city wide vote was held to decide the future of our community.

Continued on next page

Mayor

William "Bill" Hall
(386) 295-6636

Councilman Seat 1

Brandon Young
(386) 453-5645

Vice Mayor Seat 2

Doug Quartier
(386) 299-6511

Councilwoman Seat 3

Lisa O'Neal
(386) 852-5747

Councilman Seat 4

Eric Sander
(386) 852-8588

City Manager

James L. Gillis, Jr.
(386) 322-3014

Community Development

Permits, Licenses:
(386) 322-3020

Code Compliance Office:

(386) 322-3032

Fire Dept. Non-Emergency:

(386) 322-3033

Parks & Recreation:

(386) 322-3070

Police Department:

(386) 322-3030

**Police Dispatch
Non-Emergency**

(386) 323-3568

Public Works Department:

Water/Sewer Emergency

Trash & Recycling:

M-F (8 to 4:30) (386) 322-3080

All other times: (386) 323-3568

Utility Department:

New Service, Service Shut-offs:
(386) 322-3002

That vote was 75-6 to continue as a separate community and not re-join Daytona Beach. A judge ruled in 1939 that the vote was legal and the "divorce" was granted.

Our City has a rich and unique history that is unknown to many of our residents. With the assistance from the South Daytona Historical Society, we are working on displays and videos in City Hall that will highlight some of our history. We are looking to borrow books, photos, and other memorabilia to include.

Please take a moment to follow our City of South Daytona Facebook page, we are using this forum as part of our social media interaction to keep a transparent flow of information. Our City webpage is updated with timely news, events and there are also links to resources for residents and businesses.

**SPARKLE
DAYS**

April 15th-25th

The City's annual "Sparkle Days" Cleanup Campaign begins on Friday, April 15th and ends on Monday, April 25th. During this ten-day period, residents will be able to put out most anything from old appliances and furniture to yard waste and junk cars. City crews will team up with Waste Pro and will be going through each neighborhood to pick up items set out by the curb. **You do not have to call to schedule pickup.** After April 26th, all rules for regular garbage pickup apply.

The only restrictions placed on items that can be disposed of during Sparkle Days are that no hazardous waste will be picked up. This includes paint, paint thinners, gasoline, solvents, pool chemicals, etc. These items should be taken to the Volusia County Landfill – call 947-2952 for details. If a paint can is empty and dried out, you may throw it in with your regular trash.

If you have junk vehicles or boats, call Public Works to schedule a pick-up of those items. The title or registration must accompany each vehicle or boat before it can be picked up. Any residents with physical limitations can get special assistance by calling Public Works at 322-3080 from 8:00 AM to 4:30 PM, Monday through Friday.

HELPFUL HINTS FOR SPARKLE DAYS:

- Used oil may be disposed of at the Oil Igloo located at the Public Works Department, 1770 Segrave Street. Used oil is considered hazardous waste and will not be collected during Sparkle Days.
- Automobile batteries and tires may also be set out by the curb for pickup.
- For the safety of others, if you place an appliance to the curb, please remove the door or secure it shut.
- To make pickup easier, please keep items separated and, if possible, put them in a bag or a container. Please do not put items out against utility poles, fire hydrants or on top of storm drains.
- Sparkle Days is for South Daytona residents only – No contractors or commercial trash.

Code Compliance Department

CODE COMPLIANCE ONLINE RESIDENT PORTAL

Code Compliance is important for the health and safety of all residents and helps maintain quality standards that are important to achieve the highest property value. Code Compliance strives to achieve compliance through education and proactive measures in efforts of beautifying our City.

Do you have a violation concern within your neighborhood? Residents are now able to visit our website, view a list of common violations and report a code violation through an online portal. Upon submission, Code Compliance will promptly investigate.

Get signed up today! Visit www.southdaytona.org, under the Code Compliance Department, click "Code Compliance Online Portal"

Citizen Patrol

Well fellow South Daytonans the winter is over. Such as it was. We're soaring back into the 80s and 90s already. With the increasing temperatures I wanted to take a moment to remind everyone to ALWAYS check the back seat of your vehicle when you get out.

We all get in a rush in our daily lives and sometimes we forget things. Forgetting your cell phone, your lunch or cup of coffee happens all the time. No big deal.

If you forget a child inside your locked car, truck or SUV, it could be disastrous. On an 80 degree day the temperature inside your car can reach 120 DEGREES in a matter of minutes. That can lead to a heat stroke quickly.

Leaving a dog in your car, even with the windows partially rolled down won't help. And leaving your vehicle running with the A/C running is illegal. Don't take the chance. Unless you are going to the Vet or to have your dog groomed, please leave your dogs at home. We love our children and dogs. Check that back seat.

Police Department

Congratulations to Officer Diamond for his 3rd Place Novice Division win in the Officer Matt Miller Motorcycle Skills Challenge.

This annual event is held in honor of

fallen Seminole County Sheriff's Deputy Matt Miller. Over 45 riders from across the state participated in the event on Saturday, February 26, with all proceeds benefiting the Seminole County Sheriffs Office Benevolent Fund.

SOUTH DAYTONA SCHOLARSHIP OPPORTUNITY funded by The South Daytona Community Trust

SCHOLARSHIP CRITERIA:

- Student must be a resident of South Daytona
- Student must be a senior currently enrolled in high school - home school included
- Student must show proof of acceptance into a college university or post-secondary school
- Student must show proof of community service with a school counselor signature
- Student must have at least one high school recommendation
- Student must write a 500-word essay titled "How Does Volunteerism Benefit My Community?"
The essay should be a Word document, double spaced and include the applicant's name, address, high school name and phone number

SCHOLARSHIP AWARD:

- Award amount: \$1,500 to be used for tuition, books or related educational expenses. The award will be deposited directly to the college or vocational school of the winning student.
- The Community Trust Board of Directors will review all applications and essay submissions to determine the scholarship award recipient
- **Submissions due by April 29, 2022 at 4:30 p.m. with the award announced at the May 10th Community Trust Board meeting.**

Please contact the City of South Daytona at (386) 322-3014 to request an application by mail. Applications are also available online at www.southdaytona.org. Please mail application to Attn: South Daytona Community Trust, Inc. - Scholarship Program Application, P.O Box 214960, South Daytona Florida 32121 or email them to jrobinson@southdaytona.org

Citizens Alert

Citizens Alert meets monthly on the first Thursday of the month at 6:00pm at the Piggotte Community Center. Please join us and become more involved with our community.

Citizens Alert proudly donated the funds needed for the purchase of two lightning detection systems in James Street Park and Reed Canal Park with the money raised from the concession stand during 2021 Spring Baseball Season. Thank you to the players, their families, and the residents of South Daytona for supporting the concession stand! Please join us for the ribbon cutting of the system during Spring Baseball Opening Day on April 23rd at 9:00 am at James Street Park.

Look for the sign below at James Street and Reed Canal Park by the utility field to learn what the siren means.

This facility is protecting you from lightning and severe storms with an Earth Networks Siren Lightning Alerting System

<p><small>ALERT</small> ONE LONG 15-SECOND HORN BLAST</p>  <p><small>WHAT IT MEANS</small> Lightning has been detected - Take shelter immediately!</p>	<p><small>ALERT</small> STROBE FLASHING</p>  <p><small>WHAT IT MEANS</small> Facility is under alert - It is unsafe to be outdoors.</p>	<p><small>ALL - CLEAR</small> THREE SHORT 5-SECOND HORN BLASTS</p>  <p><small>WHAT IT MEANS</small> All Clear - It is now safe to resume outdoor activities.</p>
---	---	--

**South Daytona Parks and Recreation
Lightning Alerting System Sponsored by:
South Daytona Citizens Alert**

Parks & Recreation

We have several events coming up this Spring. We look forward to seeing you all!

Egg Hunt | April 9th 9:45am | Reed Canal Park | Ages 10 and Under| Free

Come meet the Bunny, hunt for eggs, check out the petting zoo, and grand prizes will be given for finding the golden eggs. The egg hunt begins promptly at 10:00am.

Spring Baseball Opening Day | April 23rd 9am | James Street Park | Free

Join us for the start of our Spring Baseball season. We will also be cutting the ribbon of the new lightning detection system that South Daytona Citizens Alert graciously donated.

Mothers Day Tea | April 30th 11am | Piggotte Center | \$15 per person

Join us for high tea on April 30th. Your ticket includes a selection of finger sandwiches, petite desserts, hot tea and lemonade. A photo station will be available and a take home gift will be provided. Call to reserve your spot!

**SOUTH DAYTONA CITIZENS ALERT COUNCIL, INC.
MEMBERSHIP APPLICATION**

MEMBERSHIP: _____ NEW _____ RENEWAL

NAME: _____

MAILING ADDRESS: _____

CITY: _____ STATE: _____ ZIP CODE: _____

PHONE: () _____ E-MAIL: _____

DUES: \$5 PER YEAR FOR EACH VOTING MEMBER PER HOUSEHOLD.

Please complete application in full.

MAIL TO: South Daytona Citizens Alert Council, P.O. Box 214223, South Daytona, FL 32121-4223

South Daytona Historical Society

The Historical Society has starting meeting again on the 1st Monday of the month at the Piggotte Community Center at 6:00pm. We are currently meeting every other month: April 4th, June 6th, August 8th, October 3rd, and December 5th. Join us to learn more about the history of our area.

2022 City Elections

If you are interested in running for City Council in 2022, please contact the City Clerk's office to obtain information about specifics for filing. State law has very stringent requirements with regard to candidates and our Deputy City Clerk is available to assist in the process. Please call Becky Witte at 386-322-3011 or stop by City Hall before opening a bank account, accepting contributions, or expending any funds.

The two City Council seats that will be up for election to four-year terms in the August 23rd General Election are seats held by Vice-Mayor Doug Quartier (Seat 2) and Councilwoman Lisa O'Neal (Seat 3). All seats are elected in a city-wide election.

Under terms of the City Charter, all qualifications and elections must be conducted on a nonpartisan basis. The City Charter also mandates council candidates be nominated solely by petition. Petitions must be signed and dated by each elector and no elector may sign more than one petition per election contest. Petitions may be picked up beginning May 13, if candidate paperwork is complete.

The candidate qualifying period for the upcoming City Election will begin at 12:00 p.m. (noon) on Monday, June 13 and end at 12:00 p.m. (noon) on Friday, June 17, 2022.

The deadline to register to vote in the General Election is July 25 through the Supervisor of Elections Office (<https://www.volusiaelections.gov/>).

Flood Protection Information Alert: Required by FEMA

The National Flood Insurance Program (NFIP) rates cities for risk of flooding and these ratings are used by insurance companies to establish premiums. NFIP is a division of the Federal Emergency Management Agency (FEMA). In order for South Daytona to qualify for the best possible rating from NFIP, we must annually publish the following information. Please review it carefully, retain for reference. Website Information: The City of South Daytona's website, found at www.southdaytona.org, and at www.volusia.org/services/public-protection/emergency-management where you will find useful links to government agencies, brochures and other valuable information regarding FEMA flood data. If you have any questions or comments, please contact the Community Development Department at City Hall, 1672 S. Ridgewood Avenue, South Daytona, FL 32119 at (386) 322-3020.

Flooding: is an act of nature which respects no boundary lines, either community or personal. Flooding can come with little warning. Flooding in South Daytona is caused by two sources: (1) the Halifax River, which may overflow its banks during severe storms and/or high tides; and (2) downpours of rain such as experienced during Tropical Storm Gordon in 1994 and the hurricanes in 2004. Flood water can cover many blocks up to four or five feet deep. County and City-owned canals have also been prone to flooding, but stormwater runoff control measures implemented by the City should minimize or eliminate this problem. The City has spent millions of dollars on stormwater drainage improvements. However, flooding will always be a possibility throughout the area due to our coastal location near sea level.

Flood maps and flood protection: references are available at the Daytona Beach and Port Orange public libraries, and at FEMA's website, www.fema.gov. You can also visit the Community Development Department at City Hall, 1672 S. Ridgewood Avenue, South Daytona, Florida to see where your property is located on the FEMA Flood Maps and obtain informational brochures on flood protection methods. Call the Community Development Department at (386) 322-3020 to obtain a flood zone determination or to have a staff member visit your property to review its flood problems and analyze methods to prevent flooding or flood damage. The City may also be able to provide a copy of your FEMA elevation certificate for homes located within special flood hazard areas. If your property is affected by problem flooding/historical flooding/repetitive loss flooding or if you suspect illegal floodplain development is occurring, please call Community Development at (386) 322-3020.

Flood Warning System: The City has an interlocal agreement with Volusia County and other municipalities that provide for coordination of the emergency management plans of all communities and for the prompt dissemination of information concerning storms and flooding. Information is also provided by local television and radio stations, since their representatives are on the emergency response teams and are located at the County Command Center during emergencies. The following stations service the South Daytona/Volusia County area: AM/FM radio - WNDB 1150 AM, WKRO 93.1 FM, WHOG 95.7 FM, WVYB 103.3 FM, WLOV 99.5 FM; Television- WESH - Ch.2, WKMG - Ch.6, WFTV - Ch.9, WCFN - Ch.13, WOFL - Ch.35, WDSC - Ch.15, Univision - Ch.26 ; National Weather Service, www.srh.noaa.gov/mlb and Volusia County Emergency Management, www.volusia.org/emergency.

Flood Insurance: For many people, their home and its contents represent their greatest investment. Property losses due to flooding are not covered under most standard homeowners' insurance policies; however, flood insurance can be obtained through the National Flood Insurance Program (NFIP). NFIP was established by Congress in 1968, enabling property owners to buy flood insurance at reasonable rates in participating communities. In return, those communities carry out flood management measures designed to protect life and property during future flooding. South Daytona participates in the National Flood Insurance Program, so you can purchase a separate flood insurance policy at a reduced rate. The Federal Emergency Management Agency (FEMA), through its Federal Insurance Administration, administers the NFIP. Find out more about flood insurance. Contact an insurance agent. Since there is usually a 30-day waiting period before a flood insurance policy takes effect, do not wait until a storm threatens before securing flood insurance. This type of insurance is backed by the Federal Government and is available to everyone, even if your property has previously been flooded. You might want to include your home contents, as most regular policies do not cover contents such as furniture. Get a flood insurance policy - it will help pay for repairs after a flood and in some cases it will help pay the costs of elevating a substantially damaged building.

Flood Safety: Before the storm: If your home is well constructed, and local authorities have not called for evacuation, stay home and make emergency preparation. If told to evacuate, follow all instructions from local authorities and follow safe evacuation routes to shelter. Your personal evacuation plan should provide for your pets, your personal hurricane supplies (food, medicine, first-aid kit, battery-powered radio, flashlights, extra batteries, etc.) and insurance papers. When evacuating, take property identification and important personal papers and documents with you. **During and after the storm:** If you are in a public shelter, remain there until informed by those in charge that it is safe to leave and return home. Often times, people are injured immediately after a storm due to unsafe buildings, downed power lines, contaminated water, and other dangerous conditions. Carefully check for structural damage prior to entering a building after a storm, and use caution when entering. Turn electricity on one breaker at a time and watch for smoke or sparks. Report broken sewer and water lines to the Public Works Department at 322-3080.

Flood Protection: When a flood threatens, take the following emergency actions: use sandbags to reduce erosion and scouring; elevate furniture above flood protection levels; create floodway openings in non-habitable areas such as garage doors; and seal off sewer lines to the dwelling to prevent the backflow of sewer waters. To prevent basement flooding, check your downspout and drain away from your house/building. There are several ways to protect your building from flood damage. While recent construction practices and regulations have made new homes less prone to flooding, many existing structures remain susceptible. Throughout the country there is a growing interest in developing practical and cost effective methods for reducing or eliminating exposures to flooding hazards. Effective ways include relocation of a building to a site not subject to flooding, construction of floodwalls or berms to keep water away from the property, or retrofitting structures to make them flood proof. Retrofitting is a different approach in that the property itself remains subject to flooding while the building is modified to prevent or minimize flooding of habitable space, and can be accomplished by elevation of the structure above flood protection levels, construction of barriers (floodwalls, berms), and/or dry floodproofing (permits entry and passage of flood waters). The Community Development Department has additional information regarding flood protection.

Flood Protection Information Alert: Required by FEMA

TIPS FOR AFTER THE FLOODING:

- Do not walk through flowing water. Drowning is the number one cause of flood deaths, mostly during flash floods. Currents can be deceptive; six (6) inches of water can knock a person off their feet. If walking in standing water, use a pole or stick to check how deep the water is.
- Turn Around, Don't Drown! Do not drive into a flooded area. Many people drown in their cars. Don't drive around road barriers; the road may be washed out.
- Stay away from power lines and electrical wires. The number two cause of death after drowning is electrocution. Electrical current can travel through water. Report downed power lines to Florida Power and Light or emergency personnel.
- Have your electricity turned off by the power company. Some appliances, such as television sets, keep electrical charges even after they have been unplugged. Don't use appliances or motors that have gotten wet unless they have been taken apart, cleaned and dried.
- Look out for small animals, especially snakes. Small animals that have been flooded out of their homes may seek shelter in yours. Use a pole or stick to poke and turn things over and to scare away small animals and snakes.
- Look before you step! After a flood, the ground and floors are covered with debris including broken bottles and nails. Floors and stairs covered with mud can be slippery.
- Be alert for gas leaks. Use a flashlight to inspect for damage. Never smoke or use candles, lanterns, matches or open flames unless you know the gas has been properly turned off and the entire area has been ventilated.
- Carbon monoxide exhaust kills. Only use a generator or other gasoline powered equipment outdoors. The same goes for cooking stoves. Charcoal fumes are especially deadly- use charcoal outdoors only.
- Clean everything that got wet. Flood waters pick up sewage and chemicals from roads, commercial properties and storage buildings. Spoiled food, flooded cosmetics, and medicines can be health hazards. When in doubt, throw it out!

Requirements for Permits and Substantial Improvements: Always contact the Community Development Department before you build on, alter, regrade, or put "fill" on your property. A building permit is required to ensure that projects do not cause flooding problems. New buildings in the flood plain must be protected from flood damage. Building codes require that new buildings must be elevated at least one foot above the base flood elevation. Only hire licensed contractors. The City requires that if the cost of reconstruction, rehabilitation, addition or other improvements to a building equals or exceeds 50% of the building's assessed tax value, the building must meet the same construction requirements as a new building. Substantially damaged buildings must also be brought up to the same standards. Also, substantial improvements and/or damage to a building in the flood plain area which is accumulative over a ten-year period and exceeds 50% of the building value must meet the new Codes and protection. The assessed value of the structure, as listed by the Volusia County Property Appraiser's office shall be determined before the improvement is started.

Funding Sources for Repetitive Loss Properties: Each year, thousands of properties flood repeatedly nationwide. Often built before floodplain management regulations took effect, these properties continue to place a severe strain on the National Flood Insurance fund. FEMA has several financial assistance programs available to communities and interested property owners to acquire, retrofit, or fund other flood mitigation projects. All these programs are managed through the State Division of Emergency Management's Mitigation Program at <http://www.floridadisaster.org/dem/mitigation>. The Flood Mitigation Assistance Program funds are specifically designed to help reduce losses to National Flood Insurance Program insured buildings. Each year a certain amount is set aside for planning grants, project grants for acquisition or retrofitting, and technical assistance grants. These funds are allocated to states like Florida each year. <https://www.fema.gov/grants/mitigation/floods>. The Hazard Mitigation Program funds become available after a Presidential disaster declaration and can be used to fund projects to protect either public or private property such as flood proofing or installation of hurricane shutters or property acquisition, relocation, or elevation to protect structures from future disasters. <http://www.fema.gov/grants/mitigation>. The Repetitive Flood Claims Program provides pre-disaster funding for mitigation projects at 100% Federal Funding. <https://www.fema.gov/flood-insurance>. The Pre Disaster Mitigation Program provides funds through a competitive grant program developed to assist communities implement hazard mitigation related activities to avert future disasters. <https://www.fema.gov/grants/mitigation/pre-disaster>. The Severe Repetitive Loss Program funds residential buildings that have at least: (a) Two separate claims payments with the cumulative amount of the claims exceeding the market value of the building; or (b) Four claims payments over \$5,000 each and the cumulative amount of such claims payments exceeds \$20,000. The SRL Program is different from the other mitigation grant programs because property owners who decline offers of mitigation assistance may experience an increase in their flood insurance premium to more closely reflect the flood risk to the structure. <https://www.fema.gov/flood-insurance>. Most of the FEMA grants provide 75% of the cost of a project. The owner is expected to fund the other 25%. The reimbursement funding programs noted above require the local government to "sponsor" the applicant from the application stage through to the completion of the project. Check the websites and read up on the details of the funding programs that are appropriate for your situation. Keep your flood insurance policy in force. All grants only fund properties that currently have a flood insurance Policy.

Drainage System Maintenance: South Daytona's Public Works Department makes inspections and maintains all City-owned ditches and canals and has maintenance contracts for aquatic weed control. You can help by taking the following measures: Do not dump or throw anything into the ditches or canals. Dumping in our ditches or canals is a violation of City of South Daytona Ordinance Section 10. Even grass clippings and branches can accumulate and block stormwater flow. A plugged ditch or canal cannot carry water, and when it rains the water needs to go somewhere. Every piece of trash contributes to flooding. If your property is next to a ditch or canal, please do your part and keep the banks clear of brush and debris. The City has a ditch and canal maintenance program which can help remove major block ages such as downed trees. If you see dumping or debris in the ditches or canals, contact Public Works at 322-3080, Community Development at 322-3020, or Police Dispatch at 323-3568.

Natural and Beneficial Functions: Under natural conditions, a flood causes little or no damage. Nature ensures that floodplain flora and fauna can survive the more frequent inundations. This is the case along Reed Canal and the banks of the Halifax River. Reed Canal helps reduce our flood damage by allowing flood waters to flow from the inner city to the Halifax River. Stormwater retention areas have been installed throughout the City which draw stormwater from the adjacent subdivisions and store it until absorbed back into the ground, thus improving water quality. During major storms, the City also has the capability of pumping water from canals and retention areas to relieve neighborhood flooding.

This newsletter is scheduled to be delivered quarterly. Extra copies are available in City Hall.
