Re: Bid No. 23-B-003 – Floating Dock Replacement

To Whom it May Concern,

Thanks for the opportunity to work with you. After having met with you on the site and discussed your marine construction needs, we are quoting the work per the specifications below.

I know that you are very concerned about having this work performed professionally. One way you can be assured is to do what counties and municipalities do when they need a contractor to perform marine construction. In many cases, they require the **Florida Certified Marine Contractor's License** from any of their bidders.

Contractor **must** obtain Florida State Marine Contractor License: 61G4-

Specialty Contractor (2) Definition. A marine contractor is a specialty contractor qualified and certified by the board to perform any work involving the construction, repair, alteration, extension and excavation for fixed docks, floating docks, boathouses, mooring devices, mooring fields, seawalls, bulkheads, piers, wharfs, boatlifts, boat ramps, revetments, cofferdams, wave attenuators, dune crossovers and other related marine structures and activities, including pile driving, framing, concrete, masonry, dredge and fill, and wood shingle, wood shakes, or asphalt or fiberglass shingle roofing on a new structure of his or her own construction. Nothing in this rule shall be deemed to restrict or limit in any manner the scope of work authorized by law of other contractor classification. 2. Subsection

(3) shall now read as follows: (3) Certified Marine Contractors must maintain applicable workers' compensation and general liability insurance as required by state and federal law, including but not limited to the provisions of the Longshoremen's and Harbor Worker's

Compensation Act, 33 U.S.C.A. S 901 et seq. and Title 46 U.S.C.A. 3. Subsection (4) shall now read as follows: (4) Other certification procedures and fees for certified marine specialty contractors shall be the same as those provided for the certification of other contractors as defined and set forth in Sections 489.109, 489.111, 489.113, 489.114, 489.115 and 489.116 F.S.

Requiring that a Florida State Certified Marine Contractor performs your marine related work is a sure-fire way of making sure that your project is going to be performed by a company that specializes as a Marine Contractor and not just a General or Building Contractor giving Marine Construction their best "try".

Furthermore, I wanted to let you know about the insurance required for the any marine related work on or adjacent to any body of water in Florida. A Worker's Compensation code of 6006F which includes United States Longshore and Harbor Worker's Act insurance will be required for the work.
